

UNM Hospitals sees over **850% ROI** after using **interviewstream**

About UNM Hospitals

- University of New Mexico (UNM) Hospitals comprises the clinical side of the greater UNM universe, including New Mexico's only academic medical center and the state's only Level I Trauma Center
- Hiring about 1,300 to 1,500 new employees each year

Client Challenge

- The health system spent a lot of money on travel expenses to bring in candidates for in-person interviews
- They spent about \$7,500 on flights, hotels and transportation expenses on average to bring in five candidates for in-person interviews per job. With hiring at least 30 employees, they would spend about \$225,000 per year.

About interviewstream

interviewstream connects recruitment teams to quality retail associates through digital interviews. Automated interview technology helps organizations discover top retail associates while reducing time to hire and costs associated with interviewing.
